

BSF FRP INDUSTRIES

Solution for Corrosion

Manufacturer Of Industrial plastics & FRP Equipments

Profile

“BSF FRP INDUSTRIES” is a trusted entity and a rising leader in FRP, GRE and advanced composites sector, one of the most experienced proven track record Indian Company in design, manufacturing supply of FRP, GRE / GRP Industrial Plastics Products. Our company and our staff are fully committed to serve our clients with innovative fibreglass solutions.

BSF FRP INDUSTRIES is today one of the leading organization for frp equipment's. Through & exhaustive designing with an eye on overall cost, quality control at manufacturing stage, ensuring technical superiority of the products and prompt service back-up are the benchmarks about which our commitment to customers revolves.

BSF products are manufactured in adherence with the industry set norms and guidelines. Further, these products are manufactured using quality approved raw materials like epoxy, polyester, vinyl ester, furane & phenolic resin. We also make products from 'Fire Retardant' resin as per client's requirement. We employ full amount of resources in developing our range, without causing any wastage and harm to the environment

Fact Sheet

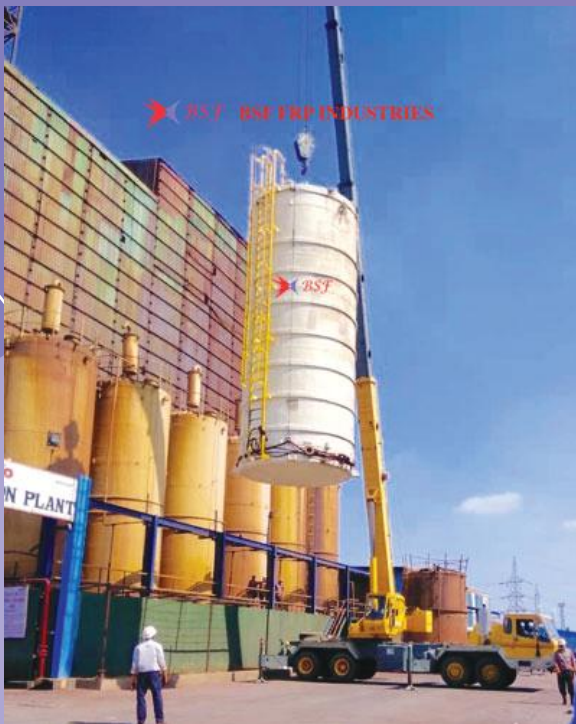

YEAR OF ESTABLISHMENT	: 2010
NATURE OF BUSINESS	: DESIGNER, MANUFACTURER, SUPPLIER & TRADER
TOTAL NO.OF EMPLOYEES	: 40 TO 60 NOS.
OFFICE	: MUMBAI (MAHARASHTRA)
WORKS	: UMBERGAON (GUJARAT)

Storage Tanks / Storage Vessel

BSF FRP Industries provides a wide range of storage solutions in GRP, GRE and dual laminate materials, for extreme and moderate service applications. Our in-house specialists are able to help you create or expand your storage capacity requirements in accordance with current design code standards and health & safety regulations.

BSF FRP Industries tanks and silos can be equipped with numerous accessories such as vent scrubbers, immersion heaters, ladders, railings, walkways, pumps, valves, level indicators, load cells, dust filters, etc.

Storage Products

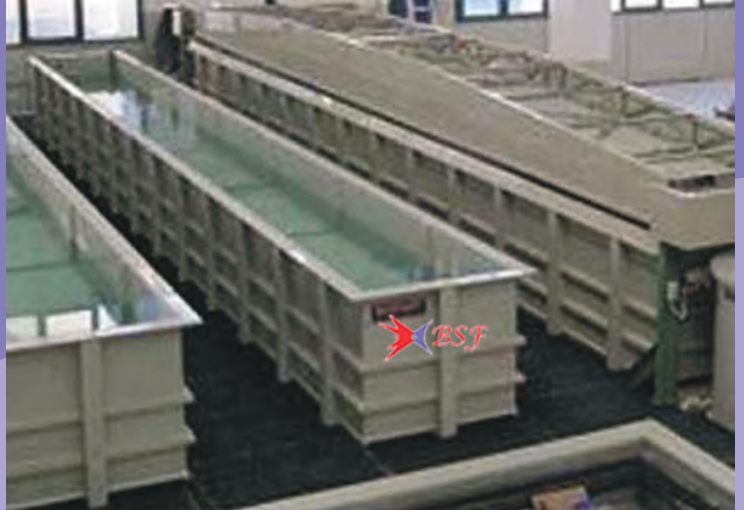

- Chemical tanks
- Ultra-Pure water tanks
- Water & Wastewater tanks
- Food storage tanks
- Salt Saturator tanks
- Brewery tanks
- Fuel Storage tanks
- Mixing tanks and reactors
- Insulated tanks

FRP & PP/FRP Pickling Tank

TYPES OF TANKS

- Pickling Plant & Tanks
- Wire Pickling Tanks & Plants Tunnel
- Pickling Tanks Galvanizing Tanks for Structure.
- Galvanizing Tanks for Pipe
- Electroplating Plants & Tanks

Chemical Storage Room

FRP/PP FRP Storage Room are used to protect Acidic fumes, chlorination and de-chlorination equipment from environmental elements, therefore enhancing the life of the equipment. Additionally, fibreglass enclosures can be used in many other applications for year round protection of your equipment, instruments and chemicals. Storage room are corrosion resistant, weather proof, low maintenance and affordable. Each shelter is available either fully equipped, or as an empty, stand alone structure.

Frp & PP/FRP Ducting

We are reliable FRP, GRE & GRP ducts manufacturer, exporter and Supplier to worldwide since 2010 with reliability. The range of our FRP Pipe and Ducting are available in different dimensions and characteristics. Our products are very wide and able to meet many different application's requirements. They can be produced in any diameter from 25mm(1") to 4000mm(160"). The standard lengths are 3, 4 and 5 meters however customised lengths are also available on request . We are leading FRP, GRE pipe as well as Duct manufacturers, suppliers and exporters.

Centrifugal Blowers

FRP & PP/FRP Blower Features

Non corrosive features
Flow & pressure Accuracy
Each Blower tested at works
Simple installation power saving features

FRP & PP/FRP Blower Applications

- Corrosive assembling plants Steel
- Manufacturing Plant
- Mechanical provisions Smell
- Fume extractions requisitions
- Ventilation's
- Cleaning
- Declassification
- Destructive gas streams

Range

Flow 100 M³ /Hr. to 150000 M³ /Hr.

Static Pressure : -800 mm WC to + 800 mm WC

M.O.C : FRP / GRP, PP, PP/FRP, PPH/FRP, PVC/FRP, CPVC/FRP, PVDF/FRP etc.

Temp. : 0° C to 150° C

Scrubbers & Stack

The gas cleaning process, controlling gaseous emissions, especially polluted gases, is an important part of waste incineration or power generation processes. BSF scrubbers can be used for the removal of SOX, NOX, HF and HCl.

BSF scrubbers function simply and efficiently. BSF designs the perfect scrubber for your application based on the requirements of the chemical engineering company. The design is mostly based on the requirements regarding temperature, gas flow, pressure, earthquake and climate conditions.

As a full - service supplier, BSF designs, produces and install equipment for the exterior of a scrubber such as ladders, platforms, drainage, protection linear and electrostatic discharge but also has the facility to serve you by delivering all internals such as spray headers, support beams, mist eliminators and packing.
